The financial statements were approved and authorised for issue by the board and were signed on its behalf on 24 March 2022.

S Bajic
Director

The notes on pages 3 to 8 form part of these financial statements.

MANIGO SERVICES LTD

**Notes to the financial statements
For the Year Ended 30 November 2021**

1. General information

Manigo Services Ltd is a private limited company incorporated in the United Kingdom and registered in England and Wales. The company's registered office is One Canada Square, Level 39, London, E14 5AB.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies.

The following principal accounting policies have been applied:

2.2 Going concern

The company has weathered the COVID pandemic well and managed to attract new external capital in the midst of the pandemic in order to continue its expansion. Fuelled by this new capital the company is hitting new highs with regards to number of clients and turnover and is in a good position to continue its successful track record of raising capital for expansion. The director

2.3 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges.

MANIGO SERVICES LTD

Notes to the financial statements
For the Year Ended 30 November 2021

2. Accounting policies (continued)

2.4 Turnover

Turnover comprises revenue receivable for the provision of software licensing and support during the year, exclusive of Value Added Tax.

Turnover receivable for the provision of software licensing is recognised in the period in which the service is provided in accordance with the stage of completion of the contract.

Turnover receivable for support services is recognised in the period in which the service is provided.

2.5 Research and development

The company undertakes research and development work in respect of projects that it believes seek an advance in science and/or technology. In the research phase of an internal project it is not possible to demonstrate that the project will generate future economic benefits and hence all expenditure on research shall be recognised as an expense when it is incurred. Intangible assets may be recognised from the development phase of a project if and only if certain specific criteria are met in order to demonstrate the asset will generate probable future economic benefits and that its cost can be reliably measured. Capitalised development costs are subsequently amortised on a straight line basis over their useful economic lives, depending on the asset.

2.6 Taxation

Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

2.7 Tangible fixed assets

Tangible fixed assets under the cost model are stated at historical cost less accumulated depreciation and any accumulated impairment losses. Historical cost includes expenditure that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Depreciation is charged so as to allocate the cost of assets less their residual value over their estimated useful lives, using the straight-line method.

Depreciation is provided on the following basis:

Office equipment	-	25% straight line
------------------	---	-------------------

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised in profit or loss.

MANIGO SERVICES LTD

Notes to the financial statements
For the Year Ended 30 November 2021

2. Accounting policies (continued)

2.8 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

2.9 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.10 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.11 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

2.12 Financial instruments

The Company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors, loans from banks and other third parties, loans to related parties and investments in ordinary shares.

3. Employees

The average monthly number of employees, including directors, during the year was 4 (2020 - 3).
