BALANCE SHEET (CONT'D) AS AT 31 DECEMBER 2004

The director is satisfied that the company is entitled to exemption under section 249A(1) of the Companies Act 1985 and that no member or members have requested an audit pursuant to section 249B(2) of the Act.

The director acknowledges his responsibilities for:

- i) ensuring that the company keeps proper accounting records which comply with section 221 of the Companies Act 1985, and
- ii) preparing accounts which give a true and fair view of the state of affairs of the company as at the end of the financial year and of its profit or loss for the financial year in accordance with the requirements of section 226 of the Companies Act 1985, and which otherwise comply with the requirements of this Act relating to accounts, so far as applicable to the company.

The accounts have been prepared in accordance with the special provisions of part VII of the Companies Act 1985 relating to small companies.

NOTES TO THE ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 2004

1. PRINCIPAL ACCOUNTING POLICIES

(a) Basis of accounting

All items are stated in the accounts under the historical cost accounting rules.

(b) Turnover

Turnover represents amounts invoiced by the company in respect of goods sold during the year, excluding VAT.

(c) Depreciation

Depreciation is calculated so as to write off the cost of tangible fixed assets by equal annual instalments over their estimated useful lives at the following rates:

Plant and equipment

15%

(d) Stocks

Stocks and work in progress are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

(e) Deferred taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profit from which the future reversal of the underlying timing differences can be deducted. Deferred taxation is measured on a non-discounted basis at the tax rate that are expected to apply in the periods in which the timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

(f) Currency of accounts

The accounts have been drawn up in Euros as the director considers this to be the most appropriate currency in which to record the company's transactions.

NOTES TO THE ACCOUNTS (CONT'D) FOR THE YEAR ENDED 31 DECEMBER 2004

(g) Foreign currencies

Assets and liabilities denominated in currencies other than Euros are translated at the rate of exchange ruling at the balance sheet date. Transactions in such currencies are recorded at the rate ruling at the date of the transactions. All differences are taken to the profit and loss account.

(h) Going concern basis

The financial statements have been prepared on the going concern basis which assumed that the company will be able to continue to meet its liabilities as they fall due for the foreseeable future. The validity of this basis is dependent on adequate sources of finance being available from the shareholders. Whilst the shareholders have no obligation to provide this support, the directors consider that such support will be forthcoming as and when it may be required. Should such support not be obtained, adjustments would have to be made to reduce the value of the company's assets to their net realisable amounts, to provide for any further liabilities that might arise and to reclassify fixed assets and long terms liabilities as current assets and liabilities.
