**NOTES TO THE ABBREVIATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 JULY 2006**

1. Accounting policies

1.1. Accounting convention

The accounts are prepared under the historical cost convention and in accordance with applicable accounting standards, and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2005)

1.2. Changes in accounting policy

In preparing the financial statements for the current year, the company has adopted the following Financial Reporting Standards

- FRSSE 2005,
- FRS 21 Events after the Balance Sheet Date

The adoption of FRS 21 has resulted in a change in accounting policy in respect of proposed equity dividends. If the company declares dividends to holders of equity instruments after the balance sheet date, the company does not recognise those dividends as a liability at the balance sheet date. The aggregate amount of equity dividends proposed before approval of the financial statements, which have not been shown as liabilities at the balance sheet date, are disclosed in the notes to the financial statements. Previously, proposed equity dividends were recorded as liabilities at the balance sheet date.

1.3. Turnover

Turnover represents the total invoice value, excluding value added tax, of sales made during the year and derives from the provision of goods falling within the company's ordinary activities

1.4. Tangible fixed assets and depreciation

The cost of tangible fixed assets includes only expenditure incurred in bringing the assets into working condition for their intended use. Depreciation is provided at the following annual rates in order to allocate the depreciable amount of each asset over its estimated useful life

Fixtures, fittings and equipment	-	25% straight line per annum
Motor vehicles	-	25% straight line per annum

1.5. Leasing

Assets obtained under hire purchase contracts and finance leases are capitalised as tangible assets and depreciated over the shorter of the lease term and their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce constant periodic rates of charge on the net obligations outstanding in each period

1.7. Deferred taxation

Deferred taxation is provided on the liability method to take account of the timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. The company has not adopted a policy of discounting deferred tax assets and liabilities.

1.8. Provisions
