NOTES TO THE ABBREVIATED ACCOUNTS

YEAR ENDED 31 DECEMBER 2008

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007).

Turnover

The turnover shown in the profit and loss account represents amounts invoiced during the year, exclusive of Value Added Tax.

Fixed assets

All fixed assets are initially recorded at cost.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Fixtures, Fittings & Equipment - 15% reducing balance

Deferred taxation

Provision is made for taxation deferred on the incremental liability approach in respect of all timing differences between the incidence of income and expenditure for taxation and accounts purposes that have originated but not reversed at the balance sheet date. Provision is made for future taxation on gains on revalued assets only where a binding commitment to dispose of the asset exists at the year end in respect of which the gain or loss has been recognised.

Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as either financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.
