- (i) ensuring that the LLP keeps adequate accounting records which comply with section 386 of the Companies Act 2006 as modified by the Limited Liability Partnerships Regulations 2008, and
- (ii) preparing financial statements which give a true and fair view of the state of affairs of the LLP as at the end of the financial year and of its profit or loss for the financial year in accordance with the requirements of section 393, and which otherwise comply with the requirements of the Companies Act 2006 as modified by the Limited Liability Partnerships Regulations 2008 relating to financial statements, so far as applicable to the LLP

1 Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of financial instruments, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008), and the requirements of the Statement of Recommended Practice 'Accounting by Limited Liability Partnerships' issued in March 2006 (SORP 2006)

Turnover

Turnover is the total amount receivable for professional services provided during the year, excluding disbursements and value added tax. Turnover is recognised when a right to consideration has been obtained through performance under each contract. Consideration accrues as contract activity progresses by reference to the value of work performed. Revenue in respect of conditional or contingent fee engagements, over and above any agreed minimum fee, is recognised when the contingent event occurs.

Unbilled revenue is included in current assets as "Amount Recoverable Under Contract"

Fixed assets

All fixed assets are initially recorded at cost

Depreciation

Depreciation is calculated so as to write off the cost of an asset, net of anticipated disposal proceeds, over the useful economic life of that asset as follows

Motor Vehicles	-	25% straight line
Equipment and F & F	-	10% - 25% straight line

Operating lease agreements

Rentals applicable to operating leases where substantially all of the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the period of the lease

1. Accounting policies (continued)

Members' participation rights

Members' remuneration

Profits are automatically divided between the members and hence there are no discretionary profits available for distribution. All members' remuneration is treated as a charge to the profit and loss account. Allocated profits are included within 'Loans and other debts due to members'. 'Loans and other debts due to members' rank pari passu with ordinary creditors in the event of winding up and after the discharge of the charge in favour of AIB (GB) to secure an overdraft facility of £50,000 if used.

In accordance with FRS 25 'Financial Instruments Presentation and Disclosure' non discretionary remuneration of members is shown as 'Members' remuneration charged as an expense' on the face of the profit and loss account.

Members' capital

Members' capital balances are repayable to the member after cessation of membership and hence are liabilities of the LLP. Accordingly, under the provisions of FRS 25, members' capital balances are classified within 'Loans and other debts due to members' in the balance sheet.

Pension costs

The LLP does not operate a pension scheme for members. The scheme operated for employees comprises personal money purchase schemes. Accordingly, the pension charge represents contributions payable by the LLP to the funds of employee personal pension plans. Members are required to make their own provision for pensions and do so mainly through contributions to personal pension policies and appropriate investments.
