**Notes to the Abbreviated Accounts  
for the Year Ended 31 March 2013**

**1 ACCOUNTING POLICIES**

**Accounting convention**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

**Turnover**

Turnover represents sales of services and recharged expenses excluding value added tax

Services provided but which had not been billed at the balance sheet date have been recognised as revenue. Revenue recognition in this manner is based on an assessment of the fair value of the services provided at the balance sheet date where there exists an agreed right to receive consideration for work undertaken. Accrued income is included in the financial statements as a current asset.

**Income receivable from joint ventures**

Where services were provided together with third party service providers under a joint arrangement, the company's proportion of income receivable is recognised. Transactions with the third party service provider are not recognised in the financial statements.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery etc                      - 33% on cost

**Deferred tax**

Deferred tax is provided in full on timing differences, which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in taxation computations in periods different from those in which they are included in the financial statements. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.
