**1 Accounting policies**

***Basis of preparation***

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

***Turnover***

Turnover represents the value, net of discounts, of goods provided to customers and work carried out in respect of services provided to customers.

***Goodwill***

Goodwill, being the amount paid in connection with the acquisition of a business in October 2007, has been written off in equal annual instalments over its estimated economic life of five years.

***Depreciation***

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Office equipment	25% reducing balance
------------------	----------------------

***Stocks and work in progress***

Stocks and work in progress are valued at the lower of cost and net realisable value. In respect of those contracts entered into to provide services over a period of time the revenue is recognised as the contract progresses to reflect the partial performance of the contractual obligations. The amount due at the balance sheet date is included under debtors as 'amounts due under contracts not yet invoiced'.

***Deferred taxation***

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

***Leasing and hire purchase commitments***

Assets held under finance leases and hire purchase contracts, which are those where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet and depreciated over their useful lives. The corresponding lease or hire purchase obligation is treated in the balance sheet as a liability.

The interest element of the rental obligations is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding.

Rentals paid under operating leases are charged to income on a straight line basis over the lease term.
