Tangible fixed assets

Tangible fixed assets, other than freehold land, are stated at cost or valuation less depreciation and any provision for impairment. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following basis:

No depreciation is provided on the company's freehold properties since in the opinion of the directors the expected useful lives are sufficiently long and the estimated residual values are sufficiently high that any such depreciation would be immaterial. The directors undertake an annual impairment review of these properties.
