Notes to the Abbreviated Accounts for the period ended 31 March 2015

1 **Accounting Policies**

Basis of measurement and preparation of accounts

The accounts have been prepared under the historical cost convention.

Turnover policy

Turnover represents the value of services provided under contracts to the extent that there is a right to consideration and is recorded at the value of the consideration due.

Where a contract has only been partially completed at the balance sheet date, turnover represents the value of the service provided to date based on a proportion of the total expected consideration at completion. Where payments are received from customers in advance of services provided, the amounts are recorded as Deferred Income and included as part of Creditors due within one year.

Tangible assets depreciation policy

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Tools and equipment 20% on written down value

Valuation information and policy

Stocks are stated at the lower of cost and net realisable value.

Other accounting policies

Provision is made at current rates for deferred taxation in respect of all material timing differences except to the extent that, in the opinion of the directors, there is a reasonable probability that the liability will not crystallise in the foreseeable future.
