Notes to the Abbreviated Accounts for the period ended 30 June 2015**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Turnover policy

Turnover comprises the invoiced value of goods and services supplied by the company, net of value added tax and trade discounts.

Tangible assets depreciation policy

Tangible fixed assets are stated at cost less depreciation.

Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Plant and machinery - 25% reducing balance basis

Motor vehicles - 25% reducing balance basis

Fixtures and fittings - 25% reducing balance basis

Intangible assets amortisation policy

Goodwill is the difference between the amount paid on the acquisition of a business and the aggregate fair value of its separable net assets. It is being written off in equal annual instalments over its estimated economic life.

Other accounting policies

Deferred taxation:

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and the law enacted or substantively enacted at the balance sheet date.
