The accounts have been prepared in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Turnover

Turnover represents income receivable for management services provided in the year, exclusive of Value Added Tax and trade discounts. Management fees are recognised at the point at which they fall due.

Investments

Deferred taxation

Deferred tax assets and liabilities have arisen from timing differences between the recognition of gains and losses in the financial statements and their recognition in a tax computation. Full provision is made for all liabilities, and provision is made for assets to the extent that they are considered more likely than not to be recoverable in the foreseeable future. Provision is made using tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based upon rates enacted at the balance sheet date.

Group Accounts

Consolidated accounts have not been prepared by virtue of the group, as headed by the company, qualifying as a small group in accordance with section 398 of the Companies Act 2006.
