## Bluehub IT Consultants Ltd Notes to the Abridged Financial Statements For The Year Ended 30 June 2021

## 1. Accounting Policies

#### 1.1. Basis of Preparation of Financial Statements

The financial statements are prepared under the historical cost convention and in accordance with the FRS 102 Section 1A Small Entities - The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006.

The company has taken advantage of the exemption under section 399 of the Companies Act 2006 not to prpare consolidated accounts, on the basis that the group of which this is the parent qualifies as a small group. the Financial states present information about the company as an individual entity and not about its group.

#### 1.2. Turnover

Turnover is measured at the fair value of the consideration received or receivable, net of discounts and value added taxes. Turnover includes revenue earned from the sale of goods and from the rendering of services. Turnover is reduced for estimated customer returns, rebates and other similar allowances.

#### Sale of goods

Turnover from the sale of goods is recognised when the significant risks and rewards of ownership of the goods has transferred to the buyer. This is usually at the point that the customer has signed for the delivery of the goods.

## 1.4. Foreign Currencies

Monetary assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction. Exchange differences are taken into account in arriving at the operating profit.

## 1.5. Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax. The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the statement of comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substant the end of the reporting period. Deferred tax is recognised on timing differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. which those deductible timing differences can be utilised. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and Bideleth bith Consultants Ltd longer probable that sufficient taxable profits will be available to the assets and liabilities are measured at the flat displays as period, as the flat displays are presented to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. Deferred tax liabilities are presented within provisions for liabilities and deferred tax assets within debtors. The measurement of deferred tax liabilities and assets reflect the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to reverge north before the year is recognised in profit or loss, except when they related to items that are recognised in other comprehensive encounce or directly in equity respectively.
