## 2 Accounting policies

#### **Turnover**

Turnover is measured at the fair value of the consideration received or receival is reduced for estimated customer returns, rebates and other similar allowance

Revenue from the sale of goods is recognised when all the following conditions satisfied:

• the Company has transferred to the buyer the significant risks and rewards of of the

goods;

• the Company retains neither continuing managerial involvement to the degre associated

with ownership nor effective control over the goods sold;

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits associated with the transaction will fl Company;

and

• the costs incurred or to be incurred in respect of the transaction can be measured.

Specifically, revenue from the sale of goods is recognised when goods are deliv legal title is passed.

### **Intangible fixed assets**

Intangible fixed assets are carried at cost less accumulated amortisation and im losses.

# Apac Reangible fixed assets and depreciation

Tangible fixed assets held for the company's own use are stated at cost less acc depreciation and accumulated impairment losses.

At each balance sheet date, the company reviews the carrying amount of its tar assets to determine whether there is any indication that any items have suffere impairment loss. If any such indication exists, the recoverable amount of an assestimated in order to determine the extent of the impairment loss.

Depreciation is provided at the following annual rates in order to write off the c valuation less the estimated residual value of each asset over its estimated usef

Plant and machinery 33% Reducing balance Furniture, fittings and 33% Reducing balance

#### **Taxation**

Income tax expense represents the sum of the tax currently payable and deferr

The tax currently payable is based on taxable profit for the year. Taxable profit profit as reported in the profit and loss account because of items of income or are taxable or deductible in other years and items that are never taxable or ded Company's liability for current tax is calculated using tax rates that have been e substantively enacted by the end of the reporting period.

Deferred tax is recognised on timing differences between the carrying amounts and liabilities in the financial statements and the corresponding tax bases used computation of taxable profit. Deferred tax liabilities are generally recognised f temporary differences. Deferred tax assets are generally recognised for all dedudifferences to the extent that it is probable that taxable profits will be available which those deductible temporary differences can be utilised. The carrying amount deferred tax assets is reviewed at the end of each reporting period and reduced extent that it is no longer probable that sufficient taxable profits will be available or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expecte the period in which the liability is settled or the asset realised, based on tax rate laws) that have been enacted or substantively enacted by the end of the reporti

Current or deferred tax for the year is recognised in profit or loss, except when items that are recognised in other comprehensive income or directly in equity, case, the current and deferred tax is also recognised in other comprehensive in directly in equity respectively.

### ApaclStocks

Stocks are stated at the lower of cost and estimated selling price less costs to cost. Costs, which comprise direct production costs, are based on the method mappropriate to the type of inventory class, but usually on a first-in-first-out basis are charged to profit or loss as incurred. Net realisable value is based on the esselling price less any estimated completion or selling costs.

When stocks are sold, the carrying amount of those stocks is recognised as an  $\epsilon$  the period in which the related revenue is recognised. The amount of any write stocks to net realisable value and all losses of stocks are recognised as an experiod in which the write-down or loss occurs. The amount of any reversal of an down of stocks is recognised as a reduction in the amount of inventories recognised in the period in which the reversal occurs.

Work in progress is reflected in the accounts on a contract by contract basis by revenue and related costs as contract activity progresses.

### Trade and other debtors

Trade and other debtors are initially recognised at fair value and thereafter state amortised cost using the effective interest method, less impairment losses for k doubtful debts.

#### Trade and other creditors

Short term creditors are measured at the transaction price. Other financial liabilincluding bank loans, are measured initially at fair value, net of transaction cost measured subsequently at amortised cost using the effective interest method.
