2. **ACCOUNTING POLICIES**

**Basis of preparing the financial statements**

**Going Concern**

The directors have considered the potential impact of COVID-19 on the principal activities of the business and they believe that they have sufficient resources in place to operate for the foreseeable future. Thus, they continue to adopt the going concern basis of accounting in preparing the financial statements.

**Turnover**

Turnover is measured at the fair value of the consideration received or receivable and represents amounts receivable for goods supplied and services rendered, stated net of discounts and of Value Added Tax.

Income is recognised when goods have been delivered to customers such that risks and rewards of ownership have transferred to them.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery etc - 33% on reducing balance and 20% on reducing balance

**Financial instruments**

The following assets and liabilities are classified as financial instruments - trade debtors, trade creditors and directors loans.

Directors loans (being repayable on demand), trade debtors and trade creditors are measured at the undiscounted amount of the cash or other consideration expected to be paid or received.

Financial assets that are measured at amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the statement of income and Retained Earnings.

**Taxation**

Taxation for the year comprises current and deferred tax. Tax is recognised in the Profit & Loss Account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.
