Notes to the Financial Statements

Year ended 31 December 2021

1 General information

The company is a private company limited by shares and is registered in England and Wales. The address of the registered office is Marsland Chambers, 1a Marsland Road, Sale Moor, Cheshire, M33 3HP, United Kingdom.

2 Statement of compliance

These financial statements have been prepared in compliance with FRS 102 Section 1A, 'The Financial Reporting Standard applicable to the UK and Republic of Ireland'.

3 Accounting policies

BASIS OF PREPARATION

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain assets.

The financial statements are prepared in sterling, which is the functional currency of the company.

TURNOVER

Turnover is measured at the fair value of the consideration received or receivable for goods supplied, net of discounts and Value Added Tax.

Revenue from the sale of goods is recognised when the significant risks and rewards of ownership have transferred to the buyer, usually on despatch of the goods; the amount of revenue can be measured reliably; it is probable that the associated economic benefits will flow to the entity; and the costs incurred or to be incurred in respect of the transactions can be measured reliably.

CURRENT TAX

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

TANGIBLE ASSETS

Tangible assets are initially measured at cost, and are subsequently measured at cost less any accumulated depreciation and accumulated impairment losses or at a revalued amount.

Any tangible assets carried at a revalued amount are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

An increase in the carrying amount of an asset as a result of a revaluation is recognised in other comprehensive income and accumulated in capital and reserves. However, the increase is recognised in profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss. A decrease in the carrying amount of an asset as a result of revaluation is recognised in other comprehensive income to the extent of any previously recognised revaluation increase accumulated in capital and reserves. If a revaluation decrease exceeds the accumulated revaluation gains accumulated in capital and reserves in respect of that asset, the excess is recognised in profit or loss.

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Office equipment	25% reducing balance
------------------	----------------------

DEFERRED TAX

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the reporting date.

will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured on an undiscounted basis at the tax rates that would apply in the periods in which timing differences are expected to reverse, based on tax rates and laws enacted at the statement of financial position date.

DEFINED CONTRIBUTION PENSION PLAN

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided. Prepaid contributions are recognised as an asset to the extent that the prepayment will lead to a reduction in future payments or a cash refund.

OPERATING LEASES

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership. Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

4 Average number of employees

The average number of persons employed by the company during the year was 4 (2020: 4.00).
